

Dearest Nat,

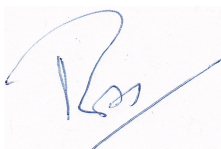

As we walk down this garden path - my hope is that you will come to understand all of me - and that I will do likewise of you. Understand me - and then love me in spite of all my eccentricities!

I have your best interests at heart in everything I do. I want you to be fulfilled in every area of your life. It is a process. I wish I could just snap my fingers and make everything change to perfect - and while I know that God could do this - it is not what We want - at least in this reality!

The story of Christ's return to earth is a progressive one. It IS Come Away With Me - The ongoing story of the life of Ross Harvey. And the story is just beginning - Nat! The very best is yet to come! And you are the central focus of this! You and Chris. The story is going to be about a guy who had so much potential - in every area - but never quite got it right. And then an amazing woman and her child came into his life - and along with God - gave him what he always needed - a reason to succeed which was above just his own welfare. It is about a great woman who loves Jesus and who supports her man through everything - and helps to facilitate his growth and development - simply by doing everything necessary to make his life better and easier.

Our lives - yours, Chris' and mine - and those of all Our NDG Family (and I mean the bigger family - all 66,475 community members) will change for the better every day as a result of everything we are doing and involved in. **Everything happens for a reason!** There is a reason your favourite place in the Oratory is the statue of Mary. She is the second most important figure in history next to Jesus! And that is the same reason that everything is happening here - in NDG! Notre Dame de Grace - Mary Mother of Jesus! Over 20 years ago I wrote what is on the front of my G3 website homepage. Please read it here: G3 Homepage. The time is now - Nat! We are in the process of finishing off the most important story in the history of the world! And in the process we will get to witness God transforming Chris into James Bond - not just a normal young man - but the most amazing man on the planet!

All my love,

A handwritten signature in blue ink, appearing to read 'Ross', with a long horizontal stroke extending to the right.
